

1 = Manual mode LED

2 = AUTO mode LED

3 = Radio Link lost LED

4, 7 = Bi directional, momentary switch, centre 0

5 = Large toggle switch for Auto/Manual

6 = Potentiometer for changing menu values

8 = LCD screen

9 = Master power switch for controller

The menu UI can be designed such that the potentiometer isn't necessary, if it is a lateral nested design, shown below:
